Pandoo QA report - V3	Test start date - 26th Sept, 2024 Test end date - 28th Oct, 2024	Report prepared 28th Oct, 2024

Test Summary

- The application faces multiple issues affecting user experience. Crashes occur during the playing stage when playing for a long time.
- Community features are mostly non-functional
- Voice repetition and echoing issues still remain
- The total counts for coins, achievements, and vocabulary are not being displayed accurately.
- Answering all quiz questions is blocked in various stages for different users on different platforms; hence, the app cannot proceed to the results or the next quiz.
- The Book a Tutor section displays incorrect data input.
- The profile section sometimes delays in updating state.
- Test cases for out-of-scope features are marked as 'Not Applicable (N/A)'.
